ANTI-DOPING RULE VIOLATIONS

International Level Anti Doping Rule Violations

Out of the 527 tests conducted in 2017, 10 resulted in asserted anti-doping rule violations (ADRVs). (note: 2 cases are still pending)

Following these anti-doping rule violations documentary hearings were held before the IPF Doping Hearing Panel to decide on the appropriate consequences to impose.

The columns below outline each 2017 ADRV including the athlete's name, Country, date of beginning and end of period of ineligibility (where the date is the same the sanction imposed was a warning), the fine imposed and the class of prohibited substance involved.
